RECOMMENDED SOLDERING CONDITION

1. Hand Solder
Basic spec is $\leq 320^{\circ}\text{C}$ for 3 seconds one time only
2. PB-Free Reflow Solder

Notes:

1. Reflow soldering should not be done more than 2 times
2. When soldering, do not put stress on the LEDs during heating
3. After soldering, do not warp the circuit board

PRECAUTION

Storage Time:

1. Calculated shelf life before opening is 12 months at $< 30^{\circ}\text{C}$ and $< 90\%$ relative humidity(RH)
2. After bag is opened, devices which will be subjected to reflow soldering or other high temperature processes must be
 - a. Assembled within 168 hours in an environment of $\leq 30^{\circ}\text{C}/60\%$ RH or
 - b. Stored at ambient of 10% RH or less
3. Devices are required baking before assembly if:
 - a. Humidity indicator card reads $> 10\%$ (for level 2a-5a) or $> 60\%$ (for level 2) at ambient temperature $23 \pm 5^{\circ}\text{C}$
 - b. 2.a) or 2.b) doesn't meet
4. If baking is required, devices should be baked for > 72 hours at $60 \pm 5^{\circ}\text{C}/5\%$ RH. Performing baking only once and using baked devices within 72 hours
5. MSL Level 3

Drive method:

LED is a current operated device and therefore require some kind of current limiting incorporated into the driver circuit. This current limiting typically takes the form of a current limiting resistor places in series with the LED. Consider worst case voltage variations than could occur across the current limiting resistor. The forward current should not be allowed to change by more than 40% of its desired value

Circuit model A

Circuit model B

- a. Recommended circuit
- b. The difference of brightness between LED could be found due to the VF-IF characteristics of LED

Cleaning:

1. Use alcohol based cleaning solvents such as isopropyl alcohol to clean the LED

Electrostatic Discharge(ESD)

1. Static electricity or power surge will damage the LED. Use of a conductive wrist band or anti-electrostatic glove is recommended when handling these LED. All devices, equipment and machinery must be properly grounded
