MORNSUN®

Wide input voltage non-isolated and regulated single output

FEATURES

- High efficiency up to 95%
- No-load input current as low as 0.2mA
- Operating ambient temperature range: -40°C \sim +85°C
- Negative output available
- Output short-circuit protection
- Pin-out compatible with LM78XX linear regulators
- IEC60950, UL60950, EN60950 approved

K78Lxx-500R3 series are high efficiency switching regulators and ideal substitutes of LM78xx series three-terminal linear regulators. The converters feature high efficiency, low loss, short circuit protection, positive or negative output voltage, and there is no need for a heat sink. These products are widely used in applications such as industrial control, instrumentation, electric power.

Note:

- 1. C1 and C2(C3 and C4) are required and should be connected close to the pin terminal of the module.
- 2. Refer to Table 1 for C1 and C2 (C3 and C4) capacitor values. For certain applications, increased values and/or tantalum or low ESR electrolytic capacitors may also be used instead.

- 3. When using configurations as shown in figure 3, we recommended to add an inductor (LDM) with a value of up to 10µH which helps reducing mutual interference.
- 4. Converter cannot be used for hot swap and with output in parallel.
- 5. Connecting a "LC" filter at the converter output helps to further reduced the output ripple. The recommended inductor value (L) is 10µH-47µH.

- 1. For additional information on Product Packaging please refer to www.mornsun-power.com. Packaging bag number: 58210080;
- 2. The max. capacitive load should be tested within the input voltage range and under full load conditions;
- 3. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 4. All index testing methods in this datatable are based on our company corporate standards;
- 5. We can provide product customization service, please contact our technicians directly for specific information;
- 6. Products are related to laws and regulations: see "Features" and "EMC";
- Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
