

Directional Coupler, 2-18GHz, 30dB, SMA Female

WMC-2-18-30dB-S

Description

Model WMC-2-18-30dB-S from Werbel Microwave is a directional coupler that covers 2 to 18 GHz with broadband flat 30dB coupling response. Typical coupling flatness is ± 0.55 dB across the band, with typical directivity 17dB. Reflections are minimal with 19dB typ. main line return loss and 17dB typ. coupling return loss. 20 watts input power. Our unique design approach to coupling line results in a very flat, stable coupling response over the frequency range. The S, C, X and Ku bands are covered in one device with high coupling factor with minimal insertion loss. Designed, assembled and tested in USA.

Photo is representative.

Specifications	Min.	Typ.	Max.	Units
Frequency	2	--	18	GHz
Impedance	--	50	--	Ohm
Coupling	--	30 ± 2.5	--	dB
Frequency Sensitivity (Flatness)	--	± 0.55	± 1.8	dB
Mainline Loss ¹	--	0.6	1.3	dB
Directivity	14	17	--	dB
Return Loss (In and Out)	14	19	--	dB
Return Loss (Coupling)	14	17	--	dB
Isolation	--	47	--	dB
Input Power (CW) ²	--	--	20	Watts

Mechanical

Connector Interface	SMA-Female
Functional Temperature ³	-55 to +85 °C
Storage Temperature	-55 to +100 °C
Weight	1.4 oz (40 g)
Humidity	10-90% non-condensing
Environment	Indoor Use Only

1. Mainline loss includes coupling loss.
2. All output ports should be terminated in a 50-ohm load with 1.2:1 max VSWR.
3. Electrical specifications at +25 °C.
4. To the best of our knowledge at the time of publication.

Materials

RoHS and REACH Compliant ⁴	
Enclosure	Aluminum
Connectors	Stainless Steel
Contacts	Be Cu, Gold Plated
Insulators	PTFE
Finish	Green Paint

Typical Performance at +25 °C

Typical Performance Over Temperature

Repeatability in Production

The information contained in this document is accurate to the best of our knowledge and representative of the product described herein at the date of publication. It may be necessary to make modifications to the product and/or documentation of the product. Werbel Microwave LLC reserves the right to make such changes as required without notice. Unless otherwise stated, all specifications and dimensions are nominal. Werbel Microwave LLC does not make any representation or warranty regarding the suitability of the product described herein for any particular purpose or application, and Werbel Microwave LLC does not assume any liability arising out of the use of any part of documentation. This document gives only a description of the product(s) and shall not form part of any contract. Please contact a Werbel Microwave LLC Applications Engineer for the most current specification drawing.

Reliability testing was performed as an internal requalification of the product to substantiate the published specifications, which were previously arrived at by calculation and/or similarity to existing products. The results of these tests are provided as a courtesy and shall not form part of a contract or warranty. While reliability tests may depict the product being tested beyond the published specification ratings for the purpose of stress testing the product, this does not imply that the product should be operating above the rated limits for any length of time. Specifications related to reliability (e.g., performance over temperature, power handling, DC current, HI-POT) are "designed to meet" and are not individually tested in production of commercially available products. Please contact a Werbel Microwave LLC Applications Engineer if specific reliability testing is needed on a particular product.
